

# RÉUNION SCIENTIFIQUE

Département de médecine spécialisée  
Installation HMR du CIUSSS-EMTL

**Jeudi le 1<sup>er</sup> novembre 2018**

**11 h 30 à 12 h 30**

**À l'amphithéâtre situé au 1<sup>er</sup> étage du  
pavillon J. A. De Sève**

## *Exploring Boundaries and Emerging Trends in Autoantibody Diagnostics*

### OBJECTIVES :

- Know how the spectrum of autoantibody testing is changing
- Identify the drivers of autoantibody testing
- Identify some of the newest uses of autoantibody testing
- Know how autoantibody testing should be applied to clinical care pathways

### Conférencier :

**Dr. Marvin Fritzler PhD MD FRCP(C)**

Dr. Marvin Fritzler PhD MD FRCP(C) is Professor of Medicine in the Cumming School of Medicine at the University of Calgary. He is the Founder of Mitogen Advanced Diagnostics Laboratory. His research focused on the molecular and cell biology of autoantigens and the induction of autoimmunity by environmental exposures. The spectrum of diagnostic tests based on his discoveries reflect his commitment to knowledge translation. Dr. Fritzler has published more than 425 peer-reviewed manuscripts and his work has been cited more than 15,000 times (H index 51).

**APPORTEZ VOTRE LUNCH**

*Les conférences scientifiques sont diffusées en visioconférence à  
l'Hôpital Santa Cabrini local D2-211*
