4. Objective

The intent of this design qualification plan is to provide documented assurance that the ELPRO Environmental Monitoring Systems meets all customer requirements, GMP requirements and the requirements of Quality Risk Assessment 101215-QRA [1]. The general requirements for the qualification of the ELPRO Environmental Monitoring Systems are documented in Qualification Plan 101215-QP [2].

5. Definitions

QRA: Quality Risk Assessment
QP: Qualification Plan
DQ: Design Qualification
GMP: Good Manufacturing Practice

6. System / Unit Description

This report encompasses the design of the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal as specified in the ELPRO Order Confirmation [3].

7. Results

No.	DQ Test Name	Acceptance Criteria	Results
001	DQ Checklist	All required sections of the checklists have been completed. All tests have been performed and passed according to the test method detailed in the test section.	Passed, see completed DQ Checklist (**Error! Reference sourc**

No.	Deviation	Assessment / Root Cause	Action	Comment
N/A	N/A	N/A	N/A	N/A

DocuSign Envelope ID: 4EBAD1EE-2F65-4282-BE9B-3CC072FB6499

9. Organization / Responsibilities

ELPRO / ELPRO Partner

- Provide qualification plans
- Complete and review checklists
- Provide qualification reports
- Tracking of problems and deviations
- Providing all data and documents that are required to perform the qualification

The responsibilities of CIUSSS de l'Est-de-l'île-de-Montréal include

- Provide personnel if required to assist in operating the software to complete the checklist.
- Review and release of qualification plans and reports.

10. Conclusion

All tests have been performed as required in the DQ plan 40.50000870-DQP [3]. With the approval of this document, the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal will be released for the next qualification phase.

DQ Checklist

ELPRO Environmental Monitoring Systems

Project Number: 40.50000870

Project Description: Software Upgrade 2023

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
Customer Configuration				
Attachment Configuration File: NA				
1.1	Device Settings	Sensor and DI/DO names, logging interval, assignment of the profiles and necessary IP addresses are available.	Passed (Yes / No): yes	09. Nov. 2023
1.2	Profiles	Profiles for schedule, sensor limit, sensor issue and recipients are available.	Passed (Yes / No): yes	09. Nov. 2023
1.3	Application Settings	E-Mail Server (SMTP) and where applicable SMS modem and telephone dialing unit settings are available.	Passed (Yes / No): yes	09. Nov. 2023
1.4	User	Assignment of user to user group with defined user rights are available.	Passed (Yes / No): yes	09. Nov. 2023
Order Confirmation				
2	Specification	All components (I/O modules, measurement modules, probes, transmitters, accessories) are specified according to the ELPRO Order Confirmation.	ELPRO Order Confirmation: NA Passed (Yes / No): NA	09. Nov. 2023

DocuSign Envelope ID: 4EBAD1EE-2F65-4282-BE9B-3CC072FB6499

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
Calibration Setup				
3.1	Inventory List	Inventory List is available.	Attachment: _____ Passed (Yes / No): _____	
3.2	Calibration Method	Calibration Method has been defined	Passed (Yes / No): _____	
3.3	Calibration Points	Calibration points have been defined	Passed (Yes / No): _____	
3.4	Tolerances	Tolerances have been defined	Passed (Yes / No): _____	
Layout Plans and Diagrams				
4.1	Electrical Diagram for Enclosure	Electrical Diagram is available	Attachment: _____ Passed (Yes / No): _____	
4.2	Sensor Placement	Sensor placement and rationale has been defined, According to customer requirements	Attachment: _____ Passed (Yes / No): _____	
4.3	I/O Module Placement	I/O Module placement has been defined	Attachment: _____ Passed (Yes / No): _____

4. Objective

The intent of this operational qualification report is to provide documented assurance that the ELPRO Environmental Monitoring Systems operated such that it meets all user requirements, GMP requirements and the requirements of ELPRO internal Quality Risk Assessment 101215-QRA [1]. The general requirements for the qualification of the ELPRO Environmental Monitoring Systems are documented in the
Qualification Plan 101215-QP [2].

5. Definitions

QRA: Quality Risk Assessment
QP: Qualification Plan
OQ: Operational Qualification
GMP: Good Manufacturing Practice

6. System / Unit Description

This report encompasses the function of the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal as specified in the ELPRO Order Confirmation [4].

7. Results

No.	OQ Test Name	Acceptance Criteria	Result
001	OQ Checklists elproMONITOR	All required sections of the checklists have been completed and approved. All tests have been performed and passed according to the test method detailed in the test section.	Passed, see completed OQ Checklist elproMONITOR (Attachment 1)

9. Responsibilities

ELPRO / ELPRO Partner

- Provide qualification plans
- Complete and review checklists
- Provide qualification reports
- Tracking of problems and deviations
- Providing all data and documents that are required to perform the qualification

The responsibilities of CIUSSS de l'Est-de-l'île-de-Montréal **include**

- Provide personnel if required to assist in operating the software to complete the checklist.
- Review and release of qualification plans and reports.

10. Conclusions

All tests have been performed as required in the OQ plan 40.50000870-OQP [3]. With the approval of this document the function of the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal is verified.

OQ Checklist elproUSER
ELPRO Environmental Monitoring Systems

This checklist is used for the functional qualification of the elproUSER software module. elproUSER must be functional and a basic configuration of the system including a minimum configuration of the user administration must already have taken place so that the tests can be carried out. elproUSER controls the common user administration for the modules elproMONITOR, elproUSER and elproEVENT This checklist can be adapted for further customer-specific tests.

Project Number: 40.50000870

Project Description: Software Upgrade 2023

Settings

The correct basic configuration of the user administration in elproUSER is checked in the following tests.

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
Groups				
1	Access Rights Documentation	Access Rights of elproUSER are in line with the Customer requirements. Attach the Access Rights Report.	Attachment: Attachment 6 OQ Passed (Yes / No): Yes	14 Nov 2023 ENT
Users				
2	User Accounts Documentation	The User Accounts of elproUSER are in line with the Customer requirements. Attach the Accounts Report	Attachment: Attachment 7 OQ Passed (Yes / No): Yes	14 Nov 2023 ENT
Security Settings				
3	Security Settings	Security settings of elproUSER are in line with the Customer requirements. Attach the print screen to this checklist.	Attachment: Attachment 8 OQ Passed (Yes / No): Yes	14 Nov 2023 ENT
Application Settings				

DocuSign Envelope ID: 05750125-29D5-48C1-870E-CA865747B102

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
4	Language, Date Format and 12 / 24 hour Format	Application settings of elproUSER are in line with the Customer requirements Attach the print screen to this checklist.	Attachment: Attachment 9 OQ Passed (Yes / No): Yes	14 Nov 2023 EM

Table 1: Settings

User Management in elproEVENT

In the following tests, the correct operation of the user management in elproEVENT is tested.

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
5.1	The elproEVENT Software must be configured and in operation	The software elproEVENT is available.	Version: 2015.2 Patch 5 Passed (Yes / No): Yes	14 Nov 2023 EM
5.2	Start elproEVENT	Before the application starts, the user must login by entering username and password. Afterwards the start window is shown. Attach the print screen to this checklist.	Attachment: Attachment 10 OQ Passed (Yes / No): Yes	14 Nov 2023 EM

Table 2: User Management

Mapping to Customers Active Directory

User groups in elproUSER can also be mapped to user groups in the customers Active Directory.

Step	Description	Specification or Acceptance Criteria	Test result	Date / Initials
6.1	The Option Active Directory	If this option is not used, the following tests 6.2, 6.3 and 6.4 are not applicable.	Active Directory is in use: (Yes / No): NO	9 Nov 2023 EM
6.2	Application Settings are configured	In the menu Active Directory are the server settings configured. Attach Attach the print screen to this checklist	Attachment: N/A Passed (Yes / No): N/A	9 Nov 2023 EM

DocuSign Envelope ID: 05750125-29D5-48C1-870E-CA865747B102

Step	Description	Specification or Acceptance Criteria	Test result	Date / Initials
6.3	Test the connection to the Active Directory	In the menu Groups the Active Directory marked in the column Active Directory. Attach the print screen to this checklist.	Attachment: N/A Passed (Yes / No): N/A	9 Nov 2023 EWF

Table 3: Active Directory

All tests were performed according to the specifications of this OQ Checklist elproUSER (Yes / No): Yes

OQ Checklist elproEVENT
ELPRO Environmental Monitoring Systems

This checklist is used for the functional qualification of the elproEVENT software module. elproEVENT must be functional and a basic configuration of the system including the alarm used must already have taken place so that the alarm tests can be carried out. elproEVENT is the audit trail and documents all attempts to change all three modules.

Project Number: 40.50000870

Project Description: Software Upgrade 2023

No.	Description	Specification / Acceptance Criteria	Test Result	Date / Initials
Application Start				
1.1	Start elproEVENT	The start of elproEVENT is recorded. Check the audit trail entry.	Passed (Yes / No): Yes	14 Nov 2023 EMA

4. Objective

The purpose of this qualification report is to review all qualification phases and summarize the successful results for the ELPRO Environmental Monitoring Systems installed at CIUSSS de l'Est-de-l'île-de-Montréal located in Montreal, QC. The general requirements for the qualification of the ELPRO Environmental Monitoring Systems are documented in Qualification Plan 101215-QP [2].

5. Definitions

URS: User Requirement Specification
QRA: Quality Risk Assessment
QP: Qualification Plan
DQ: Design Qualification
IQ: Installation Qualification
OQ: Operational Qualification
PQ: Performance Qualification
QR: Qualification Report
FMEA: Failure Mode and Effects Analysis
CAPA: Corrective Actions, Preventive Actions
FAT: Factory Acceptance Test
SAT: Site Acceptance Test

6. System / Unit Description

This report encompasses the function of the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal as specified in the ELPRO Order Confirmation [4].

7. Qualification Documentation

All qualification documents (Table 7-1) have been written, reviewed and approved according to the requirements of the Qualification Plan 101215-QP [2]. All documents are available as electronic and paper versions.

No.	Document Name	Release Date
001	Qualification Plan 40.50000870-QP	22.Feb.2018
002	Design Qualification Plan 40.50000870-DQP	9.Nov.2023
003	Design Qualification Report 40.50000870-DQR	9.Nov.2023
004	Installation Qualification Plan 40.50000870-IQP	9.Nov.2023
005	Installation Qualification Report 40.50000870-IQR	30.Nov.2023
006	Operational Qualification Plan 40.50000870-OQP	9.Nov.2023
007	Operational Qualification Report 40.50000870-OQR	30.Nov.2023

Table 7-1

DocuSign Envelope ID: 4D5D305A-5DBB-47A4-A28C-B987D0BD1766

The ELPRO qualification is designed that typical PQ requirements are encompassed in the OQ phase; therefore a separate PQ was not performed by ELPRO. An additional PQ may be performed after the system has been in operation for a period of at least three months. The PQ should include, but is not limited to the following:

i. Tests, using production materials, qualified substitutes or simulated product proven to have equivalent behavior under normal operating conditions with worst case batch sizes. The frequency of sampling used to confirm process control should be justified;
ii. Tests should cover the operating range of the intended process, unless documented evidence from the development phases confirming the operational ranges is available.

8. Change Control

All changes have been documented and assessed according to the Qualification Plan 101215-QP [2]. All pending actions have been reviewed and are properly implemented and closed.

9. Deviations

All deviations from the predefined acceptance criteria have been documented in the qualification reports of the various qualification phases. Each deviation has been assessed according to the Qualification Plan 101215-QP [2] and a CAPA plan has been implemented as applicable and all pending actions have been completed.

10. Calibration

All quality critical instruments / devices of the ELPRO Environmental Monitoring Systems as well as all instruments used for testing during the qualification phases were calibrated as described in document SD_CH_ELPRO_On-und Off-Site-Service [5].

11. Requalification

Requalification of the ELPRO Environmental Monitoring Systems is required after the implementation of a modification or change to the existing qualified unit or any component of it (e.g. replacement of a part which is not a like-to-like replacement, any addition).

12. Preventive Maintenance

ELPRO offers maintenance contracts including annual calibration and full system check. The end user is responsible for initiating a calibration and maintenance schedule with ELPRO.

DocuSign Envelope ID: 4D5D305A-5DBB-47A4-A28C-B987D0BD1766

13. Responsibilities

ELPRO / ELPRO Partner

- Provide qualification plans
- Complete and review checklists
- Provide qualification reports
- Tracking of problems and deviations
- Providing all data and documents that are required to perform the qualification

The responsibilities of CIUSSS de l'Est-de-l'île-de-Montréal include

- Provide personnel if required to assist in operating the software to complete the checklist.
- Review and release of qualification plans and reports.

14. Conclusions

The ELPRO Environmental Monitoring Systems meets all user and regulatory requirements, as well as requirements outlined in Quality Risk Assessment 101215-QRA [1]. All qualification activities have been performed as required in the Qualification Plan 101215-QP [2]. All acceptance criteria were fulfilled as defined in Qualification Plan 101215-QP [2]. All deviations have been assessed, all pending actions have been implemented and all qualification documents have been approved by QA. With the approval of this document the ELPRO Environmental Monitoring Systems at the Montreal, QC location of CIUSSS de l'Est-de-l'île-de-Montréal will be released for use during regular operations.
